

Flight Visualizer

Replay a **real airline flight** as a cinematic fly-along on a 3D Earth

A one-click Blender add-on · Erinc Celikten

How it works

External fetch → one small file → one-click scene → video

Plugin UI Walkthrough

Fetch a flight → Load & Build → Render

[screen recording of the add-on UI]

Sample Rendered Output

DLH67K · Frankfurt (EDDF) → Madrid (LEMD)

chase camera · live HUD · atmosphere · color grade
